FCI REPORTS:

FCI provides a market leading suite of residential and commercial Environmental Reports on Contaminated Land, Flood, Ground Stability and Energy & Infrastructure for due diligence in conveyancing. FCI Reports analyse extensive data from key sources with a Professional Opinion provided on all data included in the Reports. Results are presented clearly and succinctly, with 'Next Steps' highlighted on the front page of the Report.

FCI reports now include JBA 5 metre groundwater data, which indicates the risk of flooding in every 5 metre square across the country, providing a greater level of detail and allowing for more specific reporting using a simple 'traffic light' system.

PROFESSIONAL INDEMNITY COVER

For peace of mind, FCI Reports are backed by £10 million Professional Indemnity Insurance. Our cover can be relied upon by the professional parties involved in the property transaction, including the first purchasers, their advisers and the first purchaser's lender.
