

Premium Residential Report

FUTURE
CLIMATE INFO

Future Climate Info delivers professional insights and practical solutions to remove environmental risk from property transactions.

Why Choose FCI?

- Full professional risk assessments across all sections of the report.
- Clear and succinct results, with 'Next Steps' highlighted on the front page of the report.
- The latest data, now with MappAir® from EarthSense and a Subsidence Risk Rating from Property Assure based on actual insurance claims.
- Fewer 'Further Actions' using accurate search boundaries from Land Registry.
- The information you need in under 12 pages, saving you time, effort and printing costs.
- Highly qualified & experienced technical team on hand to help with Further Action enquiries.
- £10 million professional indemnity for the first purchaser and all professional parties.
- The only environmental search company regulated by RICS.
- The future of environmental searches.

Data

Every FCI Report interrogates all key datasets, including our own high quality, unique research of historical maps for potentially contaminated and in-filled land.

Environmental

Flood

Ground Stability

Energy & Infrastructure

For more information on the datasets within this report, please see the back of this card.

Free remediation warranty: Passed residential environmental reports come with protection for 6 years, up to £100,000. The cover can be relied upon by the purchaser and all professional parties involved in the property transaction.

Air quality data: EarthSense's MappAir® data is the first ever high resolution nationwide map of air pollution, providing an Air Quality Rating from the UK's leading air quality experts.

Free Further Action review: Upon evidence of remediation, returned within 48 working hours.

Subsidence risk rating: Accurate to the individual postcode and based on actual insurance claims data, the Subsidence Risk Rating from Property Assure provides an instant rating and a clear summary of the risk.

Detailed flood reporting: Our individual flood thumbnails provide a detailed map illustrating the extent of each type of flood risk and JBA's Floodability rating helps to provide an overall flood risk rating for the property.

Affordable next step solutions to help move transactions forward:

- **FCI Flood Appraisal**
From £150 + VAT, a property specific, manually assessed review of flood risk to a property, from our partners, Ashfield Solutions Group.
- **FCI Appraisal - Residential £200 + VAT***
A flat-rate solution, for more complex risks, or where the client doesn't feel comfortable gathering information or interpreting the risks themselves.
- **On-site Flood Assessment by JBA**
Survey of local conditions and advice on property resilience measures from independent flood specialists.
- **Contaminated Land Insurance from £50.00 for 25 years**
Including cover for future owners, lessees and mortgage lenders.

Premium Residential Report

Reported Risks: Environmental + Flood + Ground Stability + Energy & Infrastructure

Since 2014, Future Climate Info (FCI) has been leading the market with its fresh approach to Residential and Commercial Environmental Reports. Regulated by RICS, our aim is to put clients' needs at the forefront of everything that we do and remove any potential risk from the equation by providing full risk assessments and clear advice on next steps from our specialist team.

Environmental

Analyses the impacts from key risks including Artificial Ground, Contaminated Land Register Entries and Notices, Current Industrial Land Uses, Environmental Permits, Petrol Stations, Landfill Sites Past and Present, Telecommunications Transmitters, Potentially Contaminated Land from Past Industrial Land Uses, Pollution Incidents, Air Quality, Potentially In-Filled Land, Pylons and Electricity Lines, Radon Gas, Regulated Environmental Processes, and Surface Dangers or Hazards.

Ground Stability

Analyses the impacts from key risks including Subsidence, nearby Ball Clay Mining Areas, Brine Compensation Areas, China Clay Mining Areas, Coal Mining Areas, Geohazards such as Clay Shrinkage, Landslips, Landslides and Sink Holes, Limestone Mining Areas, Past Mining Hazards in Minerals other than coal, Modified Ground, Natural Cavities, Potentially In-filled Land and Tin Mining Areas.

Flood

Analyses the impacts from key risks listed by The Law Society including Surface Water Flooding, Sewer flooding, Groundwater Flooding Risk, River Flooding, The Sea, Historic Flooding, Flood Insurability, Flood Storage Areas, and nearby Surface Water Features.

Energy & Infrastructure

Analyses the impacts from key risks including Carbon Capture and Storage, Coal Bed Methane Extraction, Crossrail, Current and Future Hydropower Installations, Gas Recovery from Mines, HS2, Licensed Oil, Gas, and Shale Gas Exploration and Extraction, Major Energy, Environmental, and Transport Infrastructure, Power Stations, Solar Farms, Underground Coal Gasification and Wind Farms.

Essential

£39.00 + VAT⁽¹⁾

Meets the minimum requirements of the Law Society's guidance on flooding and Contaminated Land.

- Environmental
- Flooding⁽²⁾

Standard

£45.00 + VAT⁽¹⁾

Contains all of the information from the Essential report and includes Ground Stability data.

- Environmental
- Flooding⁽²⁾
- Ground Stability⁽²⁾

Premium

£50.00 + VAT⁽¹⁾

Contains all of the information from the Standard report and includes data on Energy & infrastructure such as wind farms, shale gas exploration, and HS2.

- Environmental
- Flooding⁽²⁾
- Ground Stability⁽²⁾
- Energy+Infrastructure⁽²⁾
