

A full Flood risk intelligence report, with a Professional Opinion provided across all data, helping to assist with best practice due diligence.

FCI Flood provides a full assessment of flood risk for a commercial property. Using the latest flood modelling, it highlights any flood risk areas and provides details on next steps for flood risk and the availability of insurance.

Benefits for your clients

- **Flood thumbnails**
Individual flood thumbnails provide a detailed map illustrating the extent of each type of flood risk.
- **An indication of risk on the perils of flooding**
Covering all types of flood risk, as detailed below.
- **5m Groundwater data**
Indicates the risk of flooding in every 5m² across the country using a simple 'traffic light' system.

Flood

Every FCI report where flood data is included provides a full assessment of flood risk for a property, including:

An analysis of the key risks listed by The Law Society including Surface Water Flooding, Groundwater Flooding Risk, River Flooding, The Sea, Historic Flooding, Flood Insurability, Flood Storage Areas, and nearby Surface Water Features.

For more information on the reports containing this dataset, please see overleaf.

In England, more than 5 million residential and commercial properties are at risk of flooding – that's nearly 1 in 6.

Reported Risks: Flood

Affordable Next Step Solutions

FCI Flood Appraisal - from £300 + VAT (0-2 Ha)*

Where a search returns a 'further action' for flood risk, FCI has partnered with Ashfield Solutions Group to offer an expert, property specific appraisal of the risk.

- **Manual Assessment.** By a qualified independent Flood Consultant.
- **Professional Opinion.** With clear Outcomes and details of Revised Flood Risk.
- **Property-Specific.** Considers additional factors (e.g. Ground Levels, Property Thresholds or the presence of Basements) as part of the assessment.
- **Location Context.** Review of Property Photography (where available or provided).
- **Key Research.** Review of Local Authority Records and Planning Applications.
- **Local Attributes.** Details of Flood Defences and Flood Warning / Alert History.
- **Forward Planning.** Advice on potential Redevelopment Constraints & Occupation /Operational Risks.
- **Robust Due Diligence.** Complies with the Law Society's Flood Risk Practice Note.
- **Clear Recommendations.** Given where required for appropriate Resilience or Resistance measures.
- **Outcomes.** Summary of potential Impacts, and a clear Insurability Statement

Flood Assessment Site Walkover - £ POA

Should the Flood Appraisal confirm the flood risk and recommend further investigation, the Flood Assessment Site Walkover may be recommended.

The full on-site analysis identifies flow paths, flood mechanisms and local ground conditions that may impact flooding.

The results are presented as a report of the findings, including identifying opportunities for property level resilience measures that may benefit the property.
